SUMMARY

Frontend Developer with 2 years of experience building responsive and scalable web applications using Angular, TypeScript, and JavaScript. Skilled in developing reusable UI components, integrating REST APIs, and optimizing performance in production-grade environments. Experienced in implementing reactive forms, modular architecture, and lazy loading.

PROFESSIONAL EXPERIENCE

Frontend Developer, *CrescoWorks Llp, Coimbatore, India*

11/2023 – Present

- Developed and maintained CrescoWorks ATS platform for recruitment automation, including candidate portals, multi- stage applicant tracking, and admin workflows.
- Designed customizable dashboards with drag-and-drop workflow builders and role-based access, reducing manual setup and improving usability.
- Built Career & Job Portals with real-time job indexing and mobile-first design, enhancing candidate experience and engagement.
- Architected reusable Angular components (dynamic forms, advanced filters, analytics widgets) with lazy loading and efficient change detection for high performance.
- Integrated REST APIs for real-time data synchronization across ATS modules, ensuring consistency and smooth data flow.
- Collaborated with backend and QA teams to implement performance optimization, reducing bundle size and improving loading time across deployments.

PROJECTS
